Condensed Interim Consolidated Financial Statements

(Expressed in Canadian dollars)

**As at and for the Three and Six Months Ended
August 31, 2022 and 2021**

NOTICE TO READERS REVIEW OF CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS

Under National Instrument 51-102, Part 4, subsection 4.3 (3) (a), if an auditor has not performed a review of the unaudited interim consolidated financial statements, they must be accompanied by a notice indicating that the financial statements have not been reviewed by an auditor.

The accompanying unaudited interim consolidated condensed financial statements of the Company have been prepared by and are the responsibility of management.

The Statements for the three and six months ended August 31, 2022 and 2021 have not been reviewed by the Company's auditors.

(an exploration stage company)

MANAGEMENT'S RESPONSIBILITY FOR FINANCIAL REPORTING

The accompanying condensed interim consolidated financial statements of Waseco Resources Inc. [the "Company"] are the responsibility of the management and have been approved by the Board of Directors of the Company.

The condensed interim consolidated financial statements have been prepared by management, on behalf of the Board of Directors, in accordance with the accounting policies as disclosed in the notes to the condensed interim consolidated financial statements. Where necessary, management has made informed judgments and estimates in accounting for transactions which were not complete at the statement of financial position date. In the opinion of management, the consolidated financial statements have been prepared fairly, in all material respects and are in accordance with International Financial Reporting Standards using accounting policies consistent with International Financial Reporting Standards appropriate in the circumstances.

The Board of Directors is responsible for reviewing and approving the consolidated financial statements together with other financial information of the Company and for ensuring that management fulfills its financial reporting responsibilities. An Audit Committee assists the Board of Directors in fulfilling this responsibility. The Audit Committee meets with management to review the financial reporting process and the consolidated financial statements together with other financial information of the Company. The Audit Committee reports its findings to the Board of Directors for its consideration in approving the consolidated financial statements together with other financial information of the Company for issuance to the shareholders.

Management recognizes its responsibility for conducting the Company's affairs in compliance with established financial standards, and applicable laws and regulations, and for maintaining proper standards of conduct for its activities.

As the Company is a Venture Issuer (as defined under National Instrument 52-109 Certification of Disclosure in Issuers' Annual and Interim Filings) ("NI 52-109"), the Company and Management are not required to include representations relating to the establishment and/or maintenance of disclosure controls and procedures ("DC&P") and/or ICFR, as defined in NI 52-109.

1. NATURE OF OPERATIONS AND GOING CONCERN

Waseco Resources Inc. (“Waseco” or the “Company”) is incorporated under the laws of the Province of Ontario. Its shares trade on the TSX Venture Exchange under the symbol WRI and on the Frankfurt Exchange under the symbol WSE. The Company’s registered office is Suite 1500, 2 Queen Street East, Toronto, Ontario, M5C 3G5.

The Company is an exploration stage company. On July 13, 2020, the Company announced that it had optioned its Battle Mountain Ridge Project, in Nevada, to the Marigold Mining Company (“Marigold”), a subsidiary of SSR Mining Inc. Management believes that this project can now be developed in conjunction with the adjacent Trenton Canyon Mine, which is being brought forward by Marigold. Management also expects that the option will be exercised and that the Company will receive several million dollars at that time. Thereafter, it may continue to participate in the project through a royalty holding.

Management and the Technical Advisory Committee have now turned their attention to evaluating new projects. The Company also has interests in exploration prospects in Ontario and Quebec, Canada, and a Positive Bankable Feasibility Study (“intellectual Property”) relating to a gold prospect in Indonesia. Substantially all the Company’s efforts are devoted identifying a new lead project. There has been no determination whether the Company’s interests in mineral properties contain mineral reserves which are economically recoverable.

The accompanying Condensed Interim Consolidated Financial Statements for the three and six months ended August 31, 2022 (the “Financial Statements”) have been prepared on the basis of a going concern, which contemplates the realization of assets and liquidation of liabilities in the normal course of business.

As at August 31, 2022, the Company had a working capital deficiency of \$554,991 (February 28, 2022 - \$537,710), has never had profitable operations, has accumulated losses at August 31, 2022 of \$7,431,767 (February 28, 2022 - \$7,414,487) and expects to incur future losses in the development of its business, all of which casts significant doubt on the Company’s ability to continue as a going concern. These financial statements have been prepared on the basis that the Company will continue as a going concern and do not reflect the adjustments, if any, that may be required to the carrying values of assets and liabilities and the reported expenses and statement of financial position classifications that would be necessary if the Company were unable to realize its assets and discharge its liabilities as a going concern in the normal course of operations.

The Company has taken steps to verify title to its mineral exploration properties in accordance with industry standards for the current stage of exploration of such properties. However, these procedures do not guarantee the Company’s title as the properties’ title may be subject to unregistered prior agreements, unregistered claims, or aboriginal claims.

Management plans to secure necessary financing, as and when needed, through a combination of the issue of new equity or debt instruments and the entering of joint venture or option arrangements. Nevertheless, there is no assurance that these initiatives will be successful.

These Financial Statements do not give effect to adjustments that would be necessary should the Company be unable to continue as a going concern and therefore need to realize its assets and liquidate its liabilities and commitments in other than the normal course of business and at amounts different from those in the accompanying Financial Statements. Such adjustments could be material.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

2.1 Statement of compliance

These Financial Statements have been prepared in accordance and comply with IAS 34, Interim Financial Reporting using accounting policies consistent with International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”) and interpretations issued by the IFRS Interpretations Committee (“IFRIC”). They do not include all information required for annual financial statements and should be read in conjunction with the audited consolidated financial statements of the Company as at and for the year ended February 28, 2022. Selected explanatory notes are included to explain events and transactions that are significant to an understanding of the changes to the Company’s financial position and performance since the last audited annual consolidated financial statements.

These Financial Statements were authorized for issuance by the Company’s Board of Directors on October 31, 2022. The condensed interim consolidated statement of changes in equity was amended on November 9, 2022 to include the comparative balances as at August 31, 2021.

2.2 Basis of presentation

These Financial Statements have been prepared on a historical cost basis except for certain financial instruments that have been measured at fair value. In addition, these Financial Statements have been prepared using the accrual basis of accounting, except for cash flow information.

The Financial Statements are presented in Canadian Dollars, which is the functional currency of the Company.

2.3 Basis of consolidation

These Financial Statements include the accounts of the Company and its wholly owned subsidiary: Waseco Resources US Inc., a Nevada corporation based in the United States. Control is achieved when the Company has the power to govern the financial and operating policies of an entity to obtain benefits from its activities. All inter-company transactions, balances revenues and expenses are eliminated on consolidation.

2.4 Significant accounting judgments and estimates

The preparation of the Financial Statements requires management to make judgements, estimates, and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income, and expense. In management’s opinion, all adjustments considered necessary for a fair presentation have been included in the Financial Statements. Interim results are not necessarily indicative of the results expected for the financial year. Actual annual results may differ from interim estimates. The significant judgements made by management applied in the preparation of the Financial Statements are consistent with those applied and disclosed in the Company’s audited financial statements for the year ended February 28, 2022. For a description of the Company’s critical accounting estimates and assumptions, please refer to the Company’s audited financial statements and related notes for the year ended February 28, 2022.

2.5 Significant accounting policies

The accounting policies are set out in Note 3 of the Company’s audited consolidated financial statements for the year ended February 28, 2022, and they have been applied consistently to all periods presented in these Financial Statements.

3. CAPITAL MANAGEMENT

The Company manages its capital structure and adjusts it, based on the funds available to the Company, to support the acquisition, exploration, and development of mineral properties and to ensure it continues as a going concern. The Board of Directors does not establish quantitative return on capital criteria for management, but rather relies on the expertise of the Company's management to sustain future development of the business. All the properties, in which the Company currently has an interest, are in the exploration stage with no operating revenues, as such the Company is dependent on external financing to fund its activities. To carry out planned exploration and pay for administrative costs, the Company will utilize its existing working capital and raise additional amounts as needed. The Company will continue to assess new properties and seek to acquire an interest in additional properties if it feels there is sufficient geologic or economic potential and if it has adequate financial resources to do so.

The mining industry is cyclical in nature. For the past few years, raising equity capital for junior explorers, such as Waseco, has been challenging. The Company has historically relied on equity financing to raise capital and expects to be able to continue to do so. Waseco has also been financially supported, and continues to be supported, with non-interest-bearing cash advances from the Company's Chief Executive Officer.

Management has considered how these conditions have impacted the Company's viability given its current capital structure and considers that until the outcome of future financing activities is known there is considerable uncertainty about the appropriateness of the use of the going concern basis of accounting. In the meantime, the Company has been fortunate in being the beneficiary of interest free advances by Directors but there is no assurance of the continuation of such support. Management reviews its capital management approach on an ongoing basis and believes that this approach, given the size of the Company, is reasonable.

The Company is not subject to any capital requirements imposed by regulatory body, other than of the TSX Venture Exchange ("TSXV") which requires adequate working capital or financial resources of the greater of (i) \$50,000 and (ii) an amount required to maintain operations and cover general and administrative expenses for a period of 6 months. As of August 31, 2022, the Company was not compliant with this policy of the TSXV.

There were no changes in the Company's approach to capital management during the six months ended August 31, 2022.

4. FINANCIAL INSTRUMENTS

Waseco's risk exposures and the impact on the Company's financial instruments are summarized below:

Interest-rate risk: Waseco maintains its cash balances in non-interest-bearing bank accounts at a major Canadian financial institution.

Credit risk: Credit risk is the risk of financial loss to the Company if a customer or counter party to a financial instrument fails to meet its contractual obligations. The Company's credit risk is primarily attributable to cash and refunds of government taxes due and the risk is considered low.

4. FINANCIAL INSTRUMENTS (continued)

Liquidity risk: The Company's approach to managing liquidity risk is to ensure that it will have sufficient liquidity to meet liabilities as they become due. At August 31, 2022, the Company had a working capital deficiency of \$554,991 (deficiency at February 28, 2022 – \$537,710). To meet its longer-term working capital and property exploration expenditures, the Company will use its best efforts to secure further financing to ensure that those obligations get properly discharged.

There can be no assurance that Waseco will be successful in its efforts to arrange additional financing on terms satisfactory to the Company. In the meantime, the Chief Executive Officer, who is also a Director of the Company, has been supporting the Company's operations by extending shareholder advances to the Company with neither interest nor fixed repayment terms. If additional financing is raised by the issuance of shares from the treasury of the Company, control of Waseco may change and shareholders may suffer additional dilution.

Sensitivity analysis: The Company's investments are subject to fair value fluctuations. As at August 31 2022 if the fair value of the investments had changed by 10%, with all other variables held constant, the change in net comprehensive income would be insignificant.

Market risk: Market risk is the risk of loss that may arise from changes in market factors such as interest rates, foreign exchange rates, commodity prices and/or stock market movements (price risk).

5. BLM EXPLORATION BOND

Waseco provided a reclamation bond to the government of the State of Nevada in the amount US\$17,740 with respect to the Battle Mountain Ridge lease claims. (see note 8.1). Under the terms of an Option Agreement with the Marigold, Waseco's bond obligation was assumed by Marigold. The refund of the BLM reclamation bond was received on March 2, 2022.

6. ADVANCES PAYABLE

The advances payable to Waseco's Chief Executive Office are unsecured, non-interest bearing, and with no fixed terms of repayment.

7. SHAREHOLDERS' LOANS

Shareholder loan payable consists of the following:

As at	August 31, 2022	February 28, 2022
Unsecured loan – non-interest bearing	\$ 5,000	\$ 5,000

8. EXPLORATION AND EVALUATION EXPENDITURES

The exploration and evaluation expenses for the Company are broken down as follows:

Property's Location	James Bay Lowland Ontario	Labrador Trough Quebec	Battle Mountain Nevada, USA	Total
Balance at February 29, 2021	\$170,324	\$102,935	\$1,577,447	\$1,850,706
Property expenditures (recovery)	-	3,661	(22,664)	(19,003)
Balance at February 28, 2022	172,324	106,596	1,554,783	1,831,703
Property expenditures (recovery)	-	-	-	-
Balance at August 31, 2022	\$ 172,324	\$ 106,596	\$ 1,554,783	\$ 1,831,703

On December 30, 2021, the BLM issued a letter to reduce the reclamation provision and related bond to zero. The amount was recorded as a recovery of property expenditures.

8.1 Battle Mountain, Nevada: The Company leases 29 unpatented mining claims on the Battle Mountain Gold Trend, in Larder County, Nevada. This lease is held in the name of Waseco Resources US Inc., a wholly owned subsidiary the Company. The property is subject to a 5% NSR royalty of which 2.5% NSR can be acquired at any time for US\$1.5 Million. The NSR Agreement initially called for advance royalty payments of US\$75,000 per year, which was reduced to US \$50,000 commencing in fiscal 2018. In addition, the Property has quarterly lease payments of US \$5,000. These payments include an inflation adjustment, to be calculated quarterly.

On July 1, 2020, the Company's wholly owned subsidiary entered into an Option Agreement (the "Agreement") with the Marigold Mining Company ("Marigold"), a wholly owned subsidiary of SSR Mining Inc. Under the terms of the Agreement, Marigold has an exclusive option to acquire all the rights, title, and interest in Waseco's leased unpatented mining claims within the Agreement's five-year term, which commenced on the date the Agreement was executed. On closing Waseco received cash consideration of US\$100,000 as an advance towards the option purchase price plus US\$22,660 as a reimbursement of advance royalty, lease payments and core shack fees paid by Waseco. Marigold also assumed Waseco's obligation to pay the annual royalty and quarterly lease payments.

Under the terms of the Agreement, Marigold has the option, at its sole discretion, to complete minimum earn-in work requirements, which are as follows:

- No later than July 1, 2023 either complete 10,000 feet of drilling or incur US\$500,000 in qualifying exploration expenditures; and
- No later than July 1, 2025 either complete an additional 20,000 feet of drilling or incur an additional US\$1.0 million in qualifying exploration expenditures.

8. EXPLORATION AND EVALUATION EXPENDITURES (continued)

If Marigold does not complete the minimum earn-in work requirements, it has the option to pay Waseco an amount equal to the qualifying exploration expenditures for the applicable earn-in period less the qualifying exploration expenditures actually incurred by Marigold for the applicable earn-in period.

When Marigold fulfills its exclusive option obligations discussed above, Marigold will have the right to exercise its option by providing Waseco with written notice within sixty days from July 1, 2025 to purchase the existing data owned by Waseco, as well as the contracts, water rights, permits, lease for the unpatented mining claims and existing royalty agreement, at the rate of US\$25 multiplied by the number of Measured, Indicated and Inferred mineral resource reported in Marigold's resource statement, which is required to conform to the standards of National Instrument 43-101. The purchase price is subject to a maximum option price of US\$6.0 million and a minimum option price of US\$1.0 million.

Marigold will also pay Waseco a 1% Net Smelter Return on the production and sale of minerals from the property in excess of 300,000 ounces produced. At Marigold's sole option and discretion, it may exercise the right to reduce the existing royalty from 5% to 2.5% in accordance with the terms of the existing lease agreement.

Both Waseco and Marigold have the right to terminate this agreement in writing, at any time, with either mutual consent or unilaterally.

8.2 Quebec-Labrador Trough: The Company controls these uranium prospects which consist of multiple blocks. The Company has a joint venture agreement with ORANO Canada Inc. (formerly Areva Canada Inc.) (the "ORANO Agreement") and to date the Company's monetary contribution has been \$105,770 in addition to the underlying properties. The Company's joint venture partner advanced the Company funds to be used to pay for exploration expenditures, of which \$317,922 in advances is unspent at May 31, 2022 (\$317,922 at February 28, 2021). Waseco earns a 10% fee on exploration expenditures incurred, which is recognized as operator revenue in these financial statements. During the year ended February 28, 2022 the Company also charged \$3,000 in direct overhead expenses to this advance account, which has also been recognized as operator revenue. This direct overhead expense was for senior management time incurred to manage this project.

In 2013 the government for the Province of Quebec issued a temporary moratorium on the exploration of uranium within its provincial boundaries. As such Waseco has been unable to advance the exploration of its Quebec-Labrador Trough uranium property. Since this temporary ban has been in place, Waseco has paid the required fees to the Quebec government to ensure that the Company maintains its uranium claims in good standing with the province. As of June 2022, the Quebec government's moratorium is still in effect.

Under the terms of Waseco's joint venture with ORANO the Company has no obligation to return unused exploration deposits to its joint venture partner. In addition, the partner has no claim on the exploration deposits, as such the Company's exploration deposits are being indefinitely retained by Waseco.

8. EXPLORATION AND EVALUATION EXPENDITURES (continued)

8.3 James Bay Lowlands: In 2003 Waseco acquired a 5% interest in 2003 in a 2,440-acre claim block is in approximately to the DeBeers Victor mine in the Attawapiskat Region in Northern Ontario. The property is subject to a 2% net smelter return ("NSR"), with the Company and its joint venture partners having a right of first refusal to buy out 1%.

9. CAPITAL STOCK

Share Capital: Waseco is authorized to issue an unlimited number of common shares. The issued and outstanding share capital consists of common shares.

Share-Based Payment Plan: Waseco established a stock option plan to provide additional incentive to its directors, officers, employees, service providers, or consultants in their efforts on behalf of the Company in the conduct of its affairs. The total number of shares which may be issued thereunder shall not exceed 10% of the then issued and outstanding shares of the Company. Under the terms of the plan, options shall vest immediately except those options granted to consultants or persons employed in investor relations activities, which are to vest over a twelve-month period. All options expire on the fifth anniversary from the grant date, unless specified otherwise in a Director's Resolution. The exercise price of each option issued shall not be less than the closing market price of the Company's stock on the day immediately preceding the date of grant.

The following table summarizes stock options issued and outstanding:

<i>Period ended</i>	May 31, 2022	May 31, 2022	February 28, 2022	February 28, 2022
	Weighted Average Exercise Price	No. of Options	Weighted Average Exercise Price	No. of Options
Outstanding at beginning of period:	\$0.071	2,800,000	\$0.075	2,200,000
Transactions during the year				
Granted – April 13, 2021	-	-	\$0.075	2,400,000
Granted – August 30, 2021	-	-	\$0.050	400,000
Exercised	-	-	-	-
Expired	-	-	\$0.075	(2,200,000)
Outstanding at end of the	\$0.071	2,800,000	\$0.071	2,800,000
Exercisable at end of the	\$0.071	2,800,000	\$0.071	2,800,000

On April 13, 2021, the Company issued 2.4 million options, including 1.6 million options to its Directors and 800,000 options to its consultants. These options are exercisable upon the grant date at \$0.075 per share and expire on April 9, 2024 (at August 31, 2022 - remaining life of 1.61years).

9. CAPITAL STOCK (continued)

On August 30, 2021, the Company issued 400,000 options to its CFO. These options are exercisable upon the grant date at \$0.05 per share and expire on August 18, 2024 (at August 31, 2022 - remaining life of 1.96 years).

The following table summarizes the assumptions used with the Black-Scholes valuation model for the determination of the share-based payments for the options outstanding.

Grant Date	April 13, 2021	August 30, 2021
Number of options granted	2,400,000	400,000
Weighted average information		
Exercise price	\$0.075	\$0.050
Risk-free interest rate	0.30%	0.04%
Life	3 years	3 years
Expected volatility	80%	80%
Expected dividends	-	-

10. INCOME TAXES

At August 31, 2022, the Company has approximately \$1,355,200 (February 28, 2022 - \$1,355,200) in non-capital losses carried forward for which no benefit has been recognized in the accounts (February 28, 2022 - \$1,355,200). If these losses are not utilized, they will expire between 2028 and 2044.

At February 28, 2022, the Company has \$6,000,000 of unused CCEE, CCDE, FEDE and CFRE expenses (February 28, 2022- \$6,000,000) and capital losses of \$312,400 (February 28, 2022- \$312,400). The tax benefits pertaining to these expenses are available to be carried forward indefinitely and similarly no benefit has been recognized in the accounts owing to the uncertainty of the Company's ever achieving taxable income against which these amounts might be utilized.

11. SEGMENTED INFORMATION

The Company has identified its reportable operating segments based on the information utilized by the President and Chief Financial Officer (considered to be the chief decision makers) to manage the business. The Company primarily manages its business by country of operation.

As at	August 31, 2022	August 31, 2022	February 28, 2022	February 28, 2022
	Current Assets	Total Assets	Current Assets	Total Assets
Canada	\$ 18,053	\$ 18,053	\$ 5,891	\$ 5,891
U.S.A.	-	-	22,526	22,526
