Waseco Resources Inc.**Notes to the Interim Financial Statements****For the Six Month Period Ended August 31, 2008****(Unaudited – Prepared by Management)**

1. NATURE OF OPERATIONS

The reader is directed to the notes of the February 29, 2008 audited financial statements for a full description of the nature of operations for Waseco Resources Inc. (the "Company") and more comprehensive notes to the Financial Statements generally.

This and other useful information on the Company are available on the Company's web site at www.wasecoresources.com and on SEDAR (www.sedar.com).

Waseco Resources Inc. (Waseco or the Company) is incorporated under the laws of Ontario. The Company's principal business activity is mineral exploration in Canada.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies followed in preparing these financial statements are those used by the Company as set out in the notes of the February 29, 2008 audited financial statements. For further information see the Company's February 29, 2008 audited financial statements.

3. INTEREST IN MINING PROPERTIES

Three years ago, the Company entered into a Purchase and Sale Agreement to acquire 210 claims in the Quebec Labrador Trough, which are prospective for uranium and other minerals. The vendors have retained a 2% net smelter royalty interest that the Company can buy down to 1% by paying \$1 million within 1 year of the commencement of commercial production on the properties. The Company paid \$35,000 and issued 1,000,000 common shares to the vendors during the year of acquisition fulfilling its obligations so that it now holds a 100% interest in the claims subject to the aforementioned royalty and subject to an option on the claims, as more fully described below.

During the fiscal year ended Feb. 28, 2007, the Company entered into an Agreement with a third party (UraMin Inc. ["UraMin"]) whereby the latter can earn a 50% interest in the uranium and related metals in all of the Labrador Trough claims. To acquire the option, the optionee paid Waseco \$300,000 spread over the two years of the agreement. The Company has undertaken an exploration program designed as a continuing evaluation of the uranium and other mineral potential of the property. UraMin was to provide \$1,600,000 of funding of the Company's exploration expenditures to earn a property interest. In the event that the optionee elected not to fund the entire program over a two year period, it would have no further obligations, and would retain no interest in the property. As at the year end and as the expiry date approached, UraMin had not fully satisfied the \$1,600,000 requirement.

On June 28, 2008, the Company entered into an Extension Agreement with UraMin by which UraMin undertook to spend an additional \$2,000,000 for the right to earn its interest over an extended period to June 28, 2010. During the three months ended August 31, 2008, UraMin funded the Company to undertake a program of surface exploration costing approximately \$738,000 from which the results are pending, as more fully discussed in Management's Discussion & Analysis.

The Company has been and anticipates continuing to be the recipient of refunds for approximately 47% of exploration and development expenditures spent on the properties in the Quebec Labrador Trough pursuant to the Quebec Mining Duties and Provincial Income Tax treatments.

The Company continues to hold a 5% interest in the Attawapiskat diamond prospect in northern Ontario. No work was performed on this property during the period.

4. SHARE CAPITAL (continued)

(c) Stock Options

During the period 800,000 options were exercised at a price of \$0.10 per share, for total proceeds to the Company of \$80,000.

Stock option activity since February 29, 2008 is presented below:

	Number of Options	Weighted Average Exercise Price
Outstanding, February 29, 2008	800,000	\$ 0.10
Transactions during the six months		
Granted	1,000,000	0.25
Exercised	(800,000)	0.10
Outstanding, August 31, 2008	1,000,000	\$ 0.25

On June 27, 2008, the Company to four Directors a total of 800,000 options at \$0.25 and on August 28, 2008 a further 200,000 to a newly appointed fifth Director also at \$0.25. All 1,000,000 options are exercisable for a period of 3 years from their date of grant.

Waseco established a stock option plan to provide additional incentive to its directors, officers, employees, service providers, or consultants in their efforts on behalf of the Company in the conduct of its affairs. The total number of shares which may be issued thereunder shall not exceed 10% of the then issued and outstanding shares of the Company. Under the terms of the plan, the options shall vest immediately except that options granted to consultants or persons employed in investor relations activities shall vest over twelve months. All options expire on the fifth anniversary from the grant date, unless otherwise specified.

Warrants

As at August 31, 2008 Waseco had no warrants outstanding.

5. CONTRIBUTED SURPLUS

	Six Months Ended August 31, 2008
Balance, beginning of period	\$ 66,902
Stock-based compensation expense	75,761
Balance, end of period	\$ 142,663

Waseco Resources Inc.**Notes to the Interim Financial Statements****For the Six Month Period Ended August 31, 2008****(Unaudited – Prepared by Management)**

6. INCOME TAXES

Future income taxes are accounted for using the liability method of tax allocation. Under this method, future income taxes are based on the differences between assets and liabilities reported for financial accounting purposes and those reported for tax purposes. Future tax liabilities and assets are measured using enacted tax rates. The effect on future tax liabilities and assets of a change in tax rates is recognized in the period that the change occurs.

The components of the Corporation's future income tax assets are as follows:

	Six months ended August 31, 2008	Year Ended February 29, 2008
Future income tax asset:		
Non capital losses carried forward.	\$ 24,800	\$ 24,800
Utilization of previously unrecognized future income tax assets	(24,800)	24,800
Valuation allowance: CEE, CDE, FEDE, CFRE pools	-	(24,800)
Effective rate	33.7%	-
Net future income tax asset.	\$ -	\$ -

The primary reason why our effective income tax rate on ordinary income differs from the Canadian statutory rate is because the Company operates in multiple tax jurisdictions.

7. CAPITAL MANAGEMENT

Effective January 1, 2008, the Company has adopted the CICA issued Handbook Section 1535, Capital Disclosures.

This new guidance establishes standards for disclosing information about an entity's capital and how it is managed. This standard became effective for fiscal years beginning on or after October 1, 2007 and is applicable to the Company as of March 1, 2008.

Capital Management

The Company defines capital as the aggregate of its long term obligations (presently nil) and shareholders' equity.

The Company manages its capital structure and makes adjustments to it, based on the funds available to the Company, in order to support the acquisition, exploration and development of mineral properties. The Board of Directors does not establish quantitative return on capital criteria for management of capital resources, but rather relies on the expertise of the Company's management to sustain future development of the business. Management is presently looking for an additional project to employ the additional shareholder equity which is not presently required for its existing projects. While the perceived excess is only a six figure sum, this is a magnitude which management on previous occasion has been able to employ profitably.

Waseco Resources Inc.

Notes to the Interim Financial Statements

For the Six Month Period Ended August 31, 2008

(Unaudited – Prepared by Management)

7. CAPITAL MANAGEMENT (continued)

The properties in which the Company currently has an interest are in the development and exploration stages and, as such, the Company is dependent on joint venture partnering, funds from government rebate programs or external financing through private placements to fund its activities. The bulk of its present exploration and development activity centring on its Quebec Labrador Trough properties is being funded by UraMin. The Company will continue to assess new properties and seek to acquire an interest in additional properties if it feels there is sufficient geologic or economic potential and if it has adequate available or committed financial resources to complete such acquisitions.

The Company is not subject to any externally imposed capital restrictions.

Management reviews its capital management approach on an ongoing basis and believes that this approach, given the relative size of the Company, is reasonable.”

8. SUPPLEMENTARY CASH FLOW INFORMATION

The Company did not pay any income taxes or interest during the six month period ended August 31, 2008.

9. BASIC EARNINGS PER SHARE

The earnings per share figures are calculated using the weighted average number of common shares outstanding during the period.

10. RELATED PARTY TRANSACTIONS

Other than the reimbursement to Related Parties of amounts expended by them on behalf of the Company for travel and other costs and the payment of a total of \$18,000 in Management fees to three Officers who are members of the Board of Directors during the six months, there were no Related Party Transactions in the period.
