Consequently, the future recovery or loss arising from differences in tax values and accounting values has been reduced by an equivalent estimated taxable temporary difference valuation allowance. The estimated taxable temporary difference valuation allowance will be adjusted in the period that it is determined that it is more likely than not that some or all of the future tax assets or future tax liabilities will be realized.

The Company did not pay any income taxes or interest during the six-month periods ended Aug 31, 2004 or Aug 31, 2003.

7. BASIC LOSS PER SHARE

The loss per share figures are calculated using the weighted monthly average number of common shares outstanding during the period.

Fully diluted loss per share has not been disclosed, as the effects would be anti-dilutive.

Debts associated with the interest in the Indonesian mining properties written off prior to the current year were approximately \$639,000 as at February 29, 2004. This amount relates mainly to unpaid property taxes. Any ultimate disposition of the properties or new exploration or development will require the company to settle such debts or have the acquirer assume such debts in the case of a disposition.
